SOUTH CAROLINA DEPARTMENT OF LABOR 44th ANNUAL REPORT

July 1, 1978

-

June 30, 1979

Edgar L. McGowan, Commissioner

LETTER OF TRANSMITTAL

The Honorable Richard W. Riley
Governor of South Carolina
Members of the General Assembly
State of South Carolina

Gentlemen:

We herewith submit the Forty-fourth Annual Report from the Department of Labor for the fiscal year ending June 30, 1979.

This report attempts to reflect the activities and growth of the Department and the industrial activity in the State during this period. Any additional detailed information you desire can be obtained at this office.

Respectfully submitted,

E. L. McGowan

Edgar L. McGowan
Commissioner

HISTORY OF THE SOUTH CAROLINA DEPARTMENT OF LABOR

In 1936 the General Assembly created the South Carolina Department of Labor, giving the Governor authority to appoint a Commissioner. Subsequently, Governor Olin D. Johnston appointed John W. Nates, a Spartanburg union leader, Labor Commissioner. Mr. Nates began with a staff of three in the Waters Building at Senate and Sumter Streets, later increasing his staff to ten.

These ten persons were authorized to supervise and enforce labor laws, as well as to promote closer management-employee relationships. In addition the functions included enforcement of laws pertinent to female and child labor, wage claims, job discrimination and conciliation of labor disputes.

In order to facilitate the dispatch of the Department's duties the Commissioner divided the Department of Labor into two divisions — Inspection and Standards and Statistics.

Following Mr. Nates' tenure of office, W. Rhett Harley of Charleston was appointed Commissioner in July 1939. He held this position until February 1943 at which time he resigned to join the War Manpower Commission. Before Mr. Harley left office, the Department was reorganized and a Division of Conciliation was created.

At Mr. Harley's resignation, Governor Olin D. Johnston designated R. L. Gamble Commissioner of Labor, a post held for five years. Because of South Carolina's participation in World War II, there was little expansion in the Department of Labor.

In 1948 Governor Strom Thurmond appointed Mr Fred Ponder Commissioner of Labor. He was reappointed by Governors Byrnes, Timmerman, Hollings and McNair and served in this capacity until his death on January 26, 1971.

On January 26, 1971, Deputy Commissioner I. J. Via began serving as interim Commissioner until the appointment of Mr. Edgar L. McGowan on February 4, 1971.

Under Mr. McGowan's leadership and direction, progress has been made in all areas of authority of the Department of Labor. The Department has advanced especially in its execution of the Occupational Safety and Health Program.

The South Carolina Department of Labor operates with a staff of approximately 154.

DIVISION OF EMPLOYMENT STANDARDS

It is the responsibility of this Division to enforce the South Carolina Labor Laws regarding Wage Claims, Sunday Work, Child Labor (under 16 years of age), Hours of Work, etc. Records indicate that as a result of 5,268 claims in which there were 8,083 violations a total of $721,358.67 was collected.

Wage Claims	**1977-78**	**1978-79**
Total Number of Claims	5,336	5,268
Total Number of Violations	8,770	8,083
Total Amount Collected	$2,139,883.39	$721,358.67
Total Referrals	628	589
Magistrate Referrals	287	271
Attorney Referrals	290	267
Wage Hour Referrals	51	51
Invalid Claims	315	322

Private Employment Agencies — Statutory authority for licensing and regulating private employment agencies in the State of South Carolina is vested in the Commissioner of Labor by Section 41-25-110, South Carolina Code of Laws, 1976 as amended.

This law provides that any person, as defined in the law, who charges a fee to procure or attempt to procure employment for applicants or employees for employers must pay a license fee of $100.00 and post a $3,000.00 penal bond approved by the Commissioner of Labor. During the fiscal year 1978-79, we received and turned over to the State Treasurer $10,100.00 in license fees.

Since the effective date of the Law, October 20, 1968, the Department has issued one-hundred fifty-nine (159) licenses as of June 30, 1974. Through a public hearing on May 22, 1979, Regulations 1:03, 2:01-2:05 were approved and adopted, with an effective date of July 1, 1974. These Regulations pertained to the issuance of a restricted license for agencies dealing with exclusively "Employer Paid Fees" applicants and an unrestricted license for agencies dealing with "Employer Paid Fees" applicants as well as "Applicant Paid Fees" applicants. Since the effective date of July 1, 1974, there have been three-hundred ninety-nine (399) unrestricted licenses and two-hundred twenty-two (222) restricted licenses issued as of June 30, 1979. As of this date one hundred two (102) employment agencies were in operation.

During the current fiscal year, fourteen (14) new licenses were issued, and nine (9) agencies ceased operation.

Child Labor — This division issues the Federal Age Certificates for employed minors under the age of eighteen years. During 1978-79, four thousand and seven (4007) age certificates were issued. Seven hundred sixty-six (766) random investigations for possible violations were conducted, and ninety-seven (97) violations were found. Other investigations were conducted upon receipt of complaints.

Sunday Work — During November, 1978, sixteen (16) random investigations were conducted in regard to possible "Sunday Work" violations, and seven (7) violations were found. There were no "Sunday Work" complaints filed with this office during the period.

DIVISION OF LABOR-MANAGEMENT SERVICES

The Division of Labor Management Services functions as the representative of the South Carolina Department of Labor in the area of labor-management relations. The duties of the representatives assigned to this division are establishing and maintaining communications with the work force and industry in the State, determining the volatility of the labor force in the public and private employment sectors, investigating labor disputes between employers and employees, and seeking an amicable resolution of those grievances.

Under Section 41-17-10 of the *South Carolina Code of Laws, 1976, as amended*, the Commissioner of Labor has the sole responsibility of assisting in the settlement of labor disputes that occur within South Carolina (Railroad and express companies doing business by rail are exempt). The duties of the division are to investigate industrial disputes or strikes or lockouts arising between employer and employees or capital and labor; to ascertain, as near as may be, the cause or causes of such industrial disputes or strikes or lockouts; to make a finding of fact in respect thereto; to endeavor, as far as possible, to induce both sides to such an industrial dispute or strike or lockout to arrive at an agreement and to remove misunderstanding or differences; to nominate, appoint, or act as arbitrators when so requested by both sides to such a controversy; and in general, to remove as far as possible, the causes for industrial disputes or strikes or lockouts and induce an amicable settlement of them. Unless the Commissioner or his agents find it inadvisable to do so, the finding of fact shall be reported to the Governor as soon as practicable in each case and annually to the General Assembly.

See pages 67 to 71 of this report for statistical data.

The division also administers the South Carolina Right-to-Work Law Section 41-7-10 through 41-7-90. This law provides that the rights of workers shall not be abridged based upon their affiliation or non affilia-

tion with a labor union. The division also administers the agency's O.S.H.A 11-C Discrimination Law, Section 41-15-510 through 41-15-520. Under the provisions of this statute, no person shall discharge or discriminate against any employee who has filed a complaint or instituted any proceeding under or relating to statutes regarding Occupational Safety and Health investigations.

The Division of Labor-Management Services provided direct services to 32,175 working citizens in South Carolina and impacted upon 234,675 employees of the State's total 1,133,800 working citizens.

For statistical purposes, detailed below are the categories in which case filings were registered:

DIVISION OF MIGRANT LABOR

The Division of Migrant Labor was established to enforce the South Carolina Migrant Labor Act of 1976. The Division is the administrative arm of the State Migrant Commission and formulates standards and guidelines; promulgates regulations, and aids in the enforcement of all applicable labor laws to safeguard the health, safety, education and welfare of migrant and seasonal farmworkers.

As of July 5, 1977, the Division of Migrant Labor has undertaken the responsibility for the coordination of social programs and the provision of certain services to migrant and seasonal farmworkers and their families. These services are rendered through the central office in Columbia and the eight regional offices in Spartanburg, Greenwood, Hampton, Charleston, Orangeburg, Kingstree, Florence and Camden.

The Division objectives are:

1) Alternatives to agricultural labor — provision for training of eligible persons who wish to seek alternative job opportunities to farmwork which will equip them to compete in other labor markets and to secure stable year-round employment providing an income above the poverty level.
2) Improved agricultural life style — provision of services/training necessary to improve the well-being of eligible persons and their families who remain in the agricultural labor market.

Their principal activities or functions are:

1) Field work — identify and recruit eligible persons in the State of South Carolina.
2) Intake and assessment — evaluate potential clients and enroll them in the program to receive services.
3) Counseling and referral — help to put clients in contact with the various agencies or groups providing services related to the client's needs.
4) Emergency Assistance — in situations of economic hardship or crisis, monetary aid is available for items in the following categories: Transportation, Food, Shelter, Medical Assistance and Legal Service.
5) Residential Assistance — is the provision of temporary housing for families receiving training, supportive service or post placement services.
6) Relocation Assistance — the activities necessary to arrange for a family to move to a new abode for the purpose of receiving services and/or training which will lead to alternative job opportunities to

seasonal farmwork. These activities include but are not limited to rent, utilities, clothing, furniture, etc.

7) Nutrition Assistance — nutritional services such as the purchase of food, garden supplies, nutritional education.
8) Employment and Training — refer interested clients to the South Carolina Employment Security Commission for services available through the CETA program.

In addition, the Division works with the agricultural employers and employee representatives and employees as a consultant on the standards, provisions and requirements of the U. S. Occupational Safety and Health Act of 1970 and South Carolina Occupational Safety and Health Regulations and subsequent amendments thereto; coordinates responsibilities of the Migrant Labor Program with the Department of Agriculture, and acts as liaison between the South Carolina Department of Labor and the U. S. Department of Labor for the agricultural workers and various agricultural agencies.

From July 1, 1978 through June 30, 1979, we provided services to a total of 12,830 migrant and seasonal farmworker individuals and placed 940 persons in jobs.

DIVISION OF MIGRANT LABOR
Enrollments-Services/Terminations
July 1, 1978-June 30, 1979

Transportation	3,368
Residential	2,383
Referrals	985
Health and Medical	245
Child Care	102
Legal	19
Total Support Services	19,467

DIVISION OF OCCUPATIONAL SAFETY AND HEALTH

Inspection Division — The purpose of the State Occupational Safety and Health Act is to assure working men and women a safe and healthful working environment. To see that the objectives of the Act are met, the Inspection Division staff of twenty-seven Safety Specialists conducts inspections to assure compliance with safety standards and initiates enforcement of procedures in cases on noncompliance.

Standards Division — The responsibilities of the Standards Division are to promulgate all federal occupational safety and health standards, to interpret occupational safety and health standards and to write and issue program directives.

Education and Training — Charged with the responsibility for safety and health education to the South Carolina business community, this unit provides instruction for business and industry in both the private and public sectors through seminars, lectures, and extended courses conducted in plants and in educational facilities. The unit develops training resource materials, brochures, booklets and audio/visual programs.

On January 1, 1978, the consultation services of this division were reorganized to serve the employer in both public and private sectors better. The public sector consultative services were reassigned to this division which was created to serve private sector employers.

Activity of Division

A total of two thousand and forty-five (2,045) inspections were conducted during fiscal year 1978-1979, six hundred and ninety-one (691) or twenty-five percent (25%) below last year's total. Two hundred and seventy-seven (277) or fourteen percent (14%) of the inspections were health and one thousand seven hundred and sixty-eight (1,768) or eighty-six percent (86%) were safety. Health inspections increased by twenty-four percent (24%) over last fiscal year whereas safety visits declined by thirty percent (30%). A reduction in manpower was the significant factor relative to the lower number of inspections.

Inspections, by type, were as follows: fatality — 42 (2%); complaint — 202 (10%); general schedule — 1,206 (59%); and follow-up — 595 (29%). The largest percentage increase occurred in the complaint investigations as last year only one hundred and forty (140) or (5.5%) of the inspections were complaints. The number of complaints received by OSHA that alleged hazardous working conditions jumped twenty-four percent (24%) from last year. The number of fatality investigations fell from forty-seven (47) to forty-two (42). However, the actual number of

work related deaths investigated each year was forty-eight (48) due to multiple fatalities at two work sites.

A total of eight thousand five hundred and fifty-nine (8,559) violations were cited by OSHA inspectors during fiscal year 1978-1979. Fourteen percent (14%) of these were classified as serious. The fourteen percent (14%) was a significant jump from last year when only 4.5% were classified serious. It should be noted however, that FY 78-79 was the first full year under the revised violation classification system.

Proposed penalties for violations cited and failure to abate totaled $481,316 as compared to $273,800 the previous year. This represents a seventy-six percent (76%) increase brought about primarily by the change in violation classifications. The average penalty per serious violation was $318, per nonserious $1.97, and per repeat violation $617.

Although the number of establishments inspected decreased from last year, more employees were affected by compliance activity. Total employees covered during FY 78-79 was 246,698 which is twenty-six percent (26%) above last year's total of 195,466. This is reflected when looking at the average number of workers affected per inspection. The average this year was one hundred and twenty-one (121) compared to seventy-one (71) last year.

A revised high hazard scheduling system was implemented in the manufacturing sector this past year and its effectiveness is shown through the rise in number of violations cited per initial inspection and the decline in percentage of workplaces found to be in compliance. These statistics indicate the continued concentration of OSHA enforcement in the more hazardous industries in South Carolina.

OSHA COMPLIANCE ACTIVITY

ITEM	FY 79	FY 78
Number of Inspections	2,045	2,736
Manhours	28,155	33,705
Number of Serious Violations	1,215	503
Number of Nonserious Violations	7,295	10,559
Number of Failures to Abate	60	103
Proposed Penalty, Serious Violation	$386,010	$166,790
Proposed Penalty, Nonserious Violation	$14,375	$43,465
Proposed Penalty, Failure to Abate	$50,701	$61,495
Number in Compliance	177	253
Percent in Compliance	12%	13%

Employees Covered	246,698	195,466
Employees Covered Per Inspection	121	71
Manhours Per Inspection	13.8	12.3
Violations Per Initial Inspection	5.9	5.6
Proposed Penalty Per Serious Violation	$318	$332
Proposed Penalty Per Nonserious Violation	$1.97	$4.31
Percent Follow-up	29%	28%
Percent Safety Inspections	86%	91%
Percent Health Inspections	14%	9%

DIVISION OF CONSULTATION
Fiscal Year 78-79

The Division of Consultation, Private Sector, has been in operation for 18 months. It has provided the business community of South Carolina with courtesy inspections and technical assistance to adhere voluntary compliance in both Safety and Health areas of the Occupational Safety and Health Act. It continues to receive excellent response from the business community. The Division is funded 90% with Federal funds and 10% State funds.

Total Consultative Visits	560
Courtesy Inspections	183
Technical Assistance	190
Follow-ups	168
Other	19
Total Establishments visited	373
Employees Affected	66,333
Serious Violations (Safety)	1,035

TRAINING & EDUCATION SERVICES
Fiscal Year 1978-1979

Supervisory Personnel	3,324
Non-supervisory Personnel	9,813
Total Training Sessions	297
Private	207
Public	90
Total Establishments Visited	92

DIVISION OF RESEARCH AND STATISTICS

The main objectives of this Division are to compile, analyze and coordinate statistics and research in all manufacturing industries, Consumer Price Index, Occupational Safety and Health Statistics, Safety Achievement Awards, and other data of interest to industry and labor.

Annual Report — Through the statutes, Section 41-3-320, South Carolina Code of Laws, 1976, as amended, it is mandatory that this Division collect data on all manufacturing, mining, electric, gas, and sanitary service industries for the General Assembly and the public on capital investment, value of products manufactured, employment, wages, energy consumption and other related subjects as deemed necessary as economic indicators. This report aids in projecting tax revenue through industrial growth, determining labor needs for the State, providing economic growth patterns and allocation of fuels, if necessary, through the Governor's Energy Management Office. Statistical data are collected from approximately 3,500 firms in South Carolina. A separate publication, *South Carolina's Manufacturing Industry by County*, detailing above mentioned statistics within each of the 46 counties, is available upon request from the South Carolina Department of Labor.

Labor Union Statistics — Statistics relating to labor union activity in the State has expanded in the past year to include union membership by State and county, wage and fringe benefit settlements of union contracts, areas of union concentration in industry, and the average unionized firm wage. A cooperative program has been set up with the Bureau of Labor Statistics in Washington, D. C. to coordinate efforts in obtaining work stoppage information in South Carolina.

Safety Award Program — This Division invites employers to participate in a Safety Achievement Award Program which promotes safety awareness. Applications for calendar year awards and special awards are available upon request.

Annual Occupational Injuries and Illnesses Survey — This annual survey of work injuries and illnesses is conducted by the Division of Research and Statistics, South Carolina Department of Labor, in cooperation with the Bureau of Labor Statistics, U. S. Department of Labor. It is intimately connected with South Carolina's state OSH plan.

By utilizing formal sampling techniques and estimating procedures, only a relatively small percentage of the total private sector employers are required to report under this system. Data collected in this survey are based on uniform recordkeeping requirements which are mandatory under provisions of both the 1970 Occupational Safety and Health Act and corresponding State Laws.

Data compiled from the survey include items relating to employment, hours worked, nature of business, and injury/illness experience. Using these data, it is possible to generate work injury and illness *rates* for various industry groups. These rates allow for comparisons, both between years and among industry groups, in order to measure the effectiveness of the State OSH plan and to provide a management tool for safety engineers and persons interested in measures of work injuries and illnesses. The results of each year's survey are analyzed and made available to the public in an annual publication, *South Carolina Occupational Injuries and Illnesses Survey*.

Management Information System — The overall intent of the Management Information System is to provide an effective means of obtaining information concerning all safety and health activities with a minimal burden on the field personnel.

SOUTH CAROLINA LABOR LAWS AMENDED AND ENACTED LEGISLATION

AMENDED

The General Assembly amended Section 41-15-260, S. C. Code, to insure that the state occupational safety and health program remains as effective as the federal program.

"Section 41-15-260. (A) The Commissioner, his inspectors, compliance officers, agents, or designees, upon proper presentation of credentials to the owner, manager or agent of the employer, shall enter at reasonable times and have the right to question either publicly or privately any such employer, owner, manager, agent or the employees of the employer and inspect, investigate, reproduce, photograph and sample all pertinent places, sites, areas, work injury records and such other records during regular working hours and at other reasonable times, and within reasonable limits, and in a reasonable manner when such comes under the jurisdiction of the Commissioner to enforce the occupational safety and health provisions of this title.

(B) If an inspector is denied admission for purposes of inspection, the Commissioner may seek a warrant as follows:

(1) Any circuit judge having jurisdiction where the inspection and investigation is to be conducted is empowered to issue administrative warrants upon proper showing of the need for such entry. Such inspection and investigation may include interviewing of employees, photographing, reproducing, sampling, and such other tests and acts as are necessary to carry out the purposes of the inspection and investigation.

(2) A warrant shall be issued only upon an affidavit of an officer or employee of the Department of Labor duly designated and having knowledge of the facts alleged, sworn to before the circuit judge establishing the grounds for issuing the warrant and certifying that request for permission to conduct the inspection has been made to the employer concerned and was refused and that the Commissioner of Labor has authorized the application for issuance of the warrant. If the circuit judge is satisfied that grounds for the application exist, he shall issue a warrant identifying the area, premises, building or conveyance to be inspected, the purpose of such inspection, and, where appropriate, the type of property to be inspected. The warrant shall be directed to a person authorized by the Commissioner of Labor to execute it. The warrant shall state the grounds for issuance with the supporting affidavit being made a part thereof. It shall command the person to whom it is directed to inspect the area, premises, building, or conveyance identified for the purpose specified. The warrant shall direct that it be served at a reasonable time. It shall designate the circuit judge to whom it shall be returned.

(3) A warrant issued pursuant to this section shall be served within ten days and returned within thirty days of its date of issue. The circuit judge who has issued a warrant under this section shall attach to the warrant a copy of the return and all papers filed in connection therewith and shall cause them to be filed with the court which issued such warrant.

(4) Any circuit judge authorized to issue warrants pursuant to this section shall keep a record along with a copy of the return warrant and supporting affidavit and documents for a period of three years from date of issuance of each warrant. The record shall be on a form prescribed by the Commissioner of Labor and reflect as to each warrant:

(a) Date and exact time of issue;
(b) Name of person to whom warrant issued;
(c) Name of person whose establishment or site is to be inspected;
(d) Reason for issuance of warrant;
(e) Date and time of return."

NEW LEGISLATION ENACTED

The following law was enacted by the General Assembly during the 1979 session as an addition to the general provisions controlling the Department of Labor.

"Section 41-3-55. At any construction site involving multiple employers or contractors, the Department of Labor inspector when citing any such employer or contractor for a violation of any regulation or

standard provided by law shall first determine which employer or contractor is in violation and such employer or contractor only shall be cited and held responsible for such violation."

2. Monetary Gain to Economy	$124,804,170

STATISTICAL SUMMARY

HIGHLIGHTS

At the end of fiscal year 1978-1979, the Division of Research and Statistics compiled, edited and analyzed industrial statistical data on (1) manufacturing, (2) mining and (3) electric, gas and sanitary services in South Carolina.

The following are highlights of the significant *increases* and *decreases* from the fiscal year 1977-1978 to fiscal year 1978-1979 by Industry and County.

	Increase or Decrease (millions*)
I. TOTAL CAPITAL INVESTED	
Industry —	
1) Electric, Gas & Sanitary Services	$360
2) Chemicals	177
3) Textiles	116
4) Stone, Clay & Glass	– 23
County —	
1) Barnwell	183
2) Berkeley	125
3) Calhoun	– 17
4) Spartanburg	– 11
II. NEW CAPITAL INVESTED	
Industry —	
1) Textiles	83
2) Electric, Gas & Sanitary Services	66
3) Chemicals	– 55
County —	
1) Georgetown	102
2) Richland	24
3) Fairfield	–109
III. VALUE OF PRODUCTS MANUFACTURED	
Industry —	
1) Chemicals	305
2) Machinery	277
3) Textiles	193
4) Mining	17
County —	
1) Anderson	176
2) Greenville	173
3) Dillon	– 18
4) Edgefield	– 12
IV. TOTAL WAGES	
Industry —

TEXTILES

All textile indicators experienced declines in fiscal year 1978-1979. The number of mills declined from 415 in fiscal year 1977-1978 to 388 for the fiscal year 1978-1979. Textile employment decreased by 2.7% with a loss of 4,362 workers. However, total wages increased by 4.3%.

Textile machines operating continued to decrease with the number of spindles in use declining 2.5%. Looms and knitting machines in use decreased 4.8% and 17.8% respectively, from the previous fiscal year. Cotton and wool consumption fell 8.6% and 3.7%, respectively.

ENERGY CONSUMPTION

Fuel consumption by South Carolina's industry continued to rise during the fiscal year. Electricity usage increased hardly at all while natural gas consumption rose dramatically from 60,270,384 thousand cubic feet in 1977-1978 to 963,561,844 thousand cubic feet in the fiscal year 1978-1979. Oil and coal consumption declined 22.9% and rose 2.9%, respectively.

METHODOLOGY OF ANNUAL REPORT STATISTICS

At the end of each fiscal year the Division of Research and Statistics sends to all South Carolina manufacturing, mining, and electric, gas, and sanitary services firms a survey form to complete and return by August 5. Questions asked of employers include employment, wages, capital invested, value of products manufactured or processed, hours worked, union membership, energy consumption, water used, and, if a textile firm, pertinent textile information. While not all of the questionnaires are returned due to discontinued operation or being dormant, all usable returned questionnaires are edited and processed by computer to obtain final totals.

Each firm reporting is classified in only one industry (SIC) according to its principal product manufactured or processed even though the firm may produce several various goods. Each firm is indigenous to one of the 46 South Carolina counties. While a company may have several plant locations throughout the State, each operation pertains to one county only. For a company with several plants in one county, each location is considered one firm. If a company has several plants operating in one county and the plants produce different goods, each plant is assigned its own industry (SIC) code according to principal products manufactured or processed. To obtain data on particular industry groups within each of the 46 counties see the Division of Research and Statistics' supplemental publication to the Annual Report — "South Carolina Manufacturing Industry by County."

All SIC codes referred to in this publication are based on the Standard Industrial Classification Manual, Bureau of the Budget, 1972 edition.

DEFINITION OF TERMS

Firm — a business unit in manufacturing, mining or electric, gas, and sanitary services. If a company has several plant locations in the state or county, then each location is considered a firm. Employment in a firm may range from zero for the self-employed to several thousand workers.

Total Capital Invested — actual investment in the firm since the start of construction or operations, less depreciation. This covers plant, real estate, machinery and equipment, furniture and fixtures, delivery equipment, and any rent paid for buildings, machinery, etc.

New Capital Invested — investment, less depreciation, in the firm for the fiscal year surveyed only. New Capital invested will be included in Total Capital Invested.

Value of Products Manufactured — dollar value of all manufactured or processed products produced during the fiscal year surveyed. This value is determined by totaling the number of units made or processed and multiplying by the selling price per unit. Also defined as the gross sales of all such manufactured or processed products including value of products in warehouses or unsold.

Straight Time Hours — total hours all employees (salaried and production) in a firm worked during the fiscal year surveyed based on a 40 hour workweek.

Overtime Hours — total hours production employees in a firm worked in excess of 40 hours per week. Overtime Hours worked are not included in Straight Time Hours.

Employment — represents the average employment of a firm during the fiscal year surveyed.

Salaried Employees — includes managers, supervisors, executives, clerical, salesmen, etc.

Production Employees — includes working foremen, and all nonsupervisory workers (including leadmen and trainees) engaged in fabrication, processing, assembling, inspecting, receiving storage, handling, packing, janitorial, watchman services, warehouse shipping, trucking and recordkeeping and other services closely associated with the above production operations.

Handicapped Employees — a handicapped person is anyone who:

(1) Has a physical or mental impairment which severely limits one or more major life activities such as hearing, speaking, seeing (not eye glasses), caring for one's self, performing manual tasks, walking, learning, or working. Handicaps may be either physical or mental and may include diseases such as cancer, diabetes, muscular dystrophy, multiple sclerosis and epilepsy, as well as alcohol and drug addiction, etc.

(2) Has a record of being handicapped. For example, someone with a history of mental or emotional illness or heart disease.

INDUSTRIAL STATISTICS BY STANDARD INDUSTRIAL CLASSIFICATION IN MINING, MANUFACTURING, AND PUBLIC UTILITIES (ALL REPORTING INDUSTRIES)
Fiscal Year July 1, 1978 to June 30, 1979

MEDIATION STATISTICS

DIVISION OF MEDIATION

Explanation

The following tables include data drawn from the closed mediation cases of the South Carolina Department of Labor. The tables do not provide information for all contract renewals or reopenings in the state — only those cases where mediation is specifically requested.

'Workers directly involved' means the best estimate of the number of workers in the bargaining unit (union) of the establishment. This does not necessarily include all the workers in the establishment.

TABLE 1
WORK STOPPAGES IN SOUTH CAROLINA

Calendar Year	Number of Strikes	Workers Involved	Total Lost Hours	Percent of Estimated Working Time (Private, Nonfarm)
1970	14	4,500	524,800	0.047
1971	13	9,400	828,000	0.06
